The diagram illustrates the electrical system for a vehicle, featuring a battery (1) and an alternator (2) connected to a fuse block (27). The battery is also connected to a starter motor (91) and a battery disconnect switch (99). The alternator is connected to a voltage regulator (22) and a fuse (21). The system includes various sensors and lights, such as a temperature sensor (30), a pressure sensor (33), a water level sensor (24), a fuel level sensor (27), a coolant level sensor (43), a brake light switch (41), a horn (59), and a service minder (46). The diagram also shows the wiring for a 12V outlet (103) and a service minder (46). The components are connected by a network of wires, with some wires being bundled together (e.g., 40, 71). The diagram is divided into several sections by dashed lines, indicating different functional areas of the system.
